

Governance, Management, Records and Confidentiality Policy

Policy Number: 17

Date Updated: 27/07/2017

Rationale and Policy Considerations

The education and care service understands it has legal responsibilities associated with setting up and operating a service. The approved provider has a legal responsibility to comply with Family Assistance Law; Education and Care Services National Law; account for Australian Government funds; ensure the fitness and propriety of the provider, including managing bodies, and any authorised supervisor/nominee in day to day charge of the service; comply with any Australian Government funding agreements; and ensure the service remains financially viable. The service has a responsibility to maintain appropriate governance arrangements for the service that reflects the legal status and authority to hold a provider approval and service approval, and to effectively manage the service.

The education and care service also understands it has a responsibility to protect and manage records in a way that respects the privacy and confidentiality of all stakeholders, whilst maintaining business requirements. It also recognises the importance of developing practices that respect privacy and confidentiality so that families will trust the service and openly exchange information with educators/staff. Legislation requires that families provide personal information to the service so that appropriate care can be taken of their children. The service will retain and use this information in accordance with regulatory, taxation and privacy requirements and may discuss a child's personal details with another child care professional in order to fulfil their responsibilities towards the child. It is important therefore to ensure that educators/staff are fully aware of their responsibilities for maintaining strict confidentiality under the Privacy Act (1988), and also that families are informed of their rights in regard to access to their own personal information, and how the service will ensure the information is protected from unauthorised access. Families need to be informed about which people have authorised access to their child's personal information. Records that need to be retained will be filed or stored in a manner that protects them from unauthorised access.
